*The Great Gatsby*
Color Websites

With members of your color group, you will create a website using either Weebly or Google sites that will

• explain how the color imagery helps a reader gain a deeper understanding of the chosen character and/or setting;

• provide an in-depth analysis of how the various connotations for the color apply to the character and/or setting, using the character's thoughts, words, and actions as evidence or main events that take place in the setting;

• include direct quotations from the novel along with your analysis of these quotes;

• incorporate knowledge of the cultural connotations of the color from *The Dictionary of Symbols.*

In addition, the look of your website should suggest the *feeling* of your color's thematic implications. This can be achieved through design and the use of images. Be sure to include a Works Cited list.
